

CSSZ (Q)

Certificate for Construction Safety Supervisors 建造業安全督導員證書

When the programme is successfully completed and obtained a certificate, the student will be able to:

Implement safety inspection according to construction industry related safety regulations and code of practice; and able to supervise construction workers to adopt relevant regulations and safety standards to facilitate worker safety in the workplace; **Suggest** safety measures and improvement actions that embrace compliance in response to potential risks in construction procedures; **Plan** and take relevant occupational health protection measures in relation to occupational safety and health and hazard control; **Apply** the knowledge of safety management to analyze common accidents in construction site and suggest proper preventive measures to ensure safety in work environment.

如成功完成此課程並獲得證書，學員便能：

根據與建造行業相關的安全法例和安全守則來執行安全視察，並能指導工地工作人員遵守相關法例和工地安全標準，從而促進工人安全工作；就工地工序的潛在風險，建議合規的安全措施和改善方法；計劃並提供與職業健康及控制危害的相關職業健康保障措施；運用安全管理知識，分析建築工地常見的意外，並建議合適的預防措施，以確保工作環境安全。

Modules 單元 (Modules 1, 2 & 3 must be completed in order first; 必須先按順序完成單元1, 2及3)
